Hello Chief Boockholdt:

Thank you very much for the time you, and Supervisory Investigators Levin and Arnold spent with Robin and me on Tuesday.

This list was compiled by our colleague Giselle Issa, who is the Director of our Order Monitoring System Program.

Attached please find the list that we have labeled "slow pharmacies" with the new criteria - retail pharmacies that have sales >350K and declined in units >= 50%.

The total of pharmacies that met this criteria is 285. I believe that you will be able to sort them by state.

Also attached is the PainWeek abstract that was mentioned by Robin during our teleconference.

Please let me know if you need any other feedback or information concerning this list, and I look forward to assisting you and your Section, as well as any Field Office with any questions.

I hope you have a great weekend.

Best regards,

Jack
